Inside the main entrance standing on the historic gym floor, looking south. Level 3 paint is underway, level 2 walls are receiving tape and texture, and the level 1 floor is being polished. The main stair is going in on the right.

On the left, one of 184 windows has received new glazing putty and glass. The historic steel frames will remain. On the right, footings are being prepped for steel canopies that will span between the Main Library and the Bear Down Gym.
On the left, mechanical ductwork is being installed above the existing historic gym floor and bleachers. On the right, the level one concrete slab on grade is being polished. On top of this polished floor will be the reception desk for a wellness lounge and studio.

Standing on level 3, looking down one of two elevator shafts. This week marks the beginning of the installation of the elevators with steel rails on either side running the height of the building.
